

Swim Teacher Water Rescue Training Certificate

The Swimming and Water Safety Teacher licence is valid for one year from the date of issue. Swimming and Water Safety Teachers are required to maintain their industry licence through a renewal application process.

Evidence of current CPR, knowledge and skills in basic water rescue techniques, and ongoing professional development are required at the time of renewal.

This certificate will assist in recording your water rescue technique training to upload on the website at the time of renewal.

This is to certify that:

Has completed:

Water Rescue Techniques

(e.g. Swim, different types of rescues, different types of tows, rescue conscious and unconscious casualties, identify types of swimmers, call for help, practical water work, respond to simulated incidents)
